DETAILED ACTION

Claim Objections

1. Claims 28, 29 and 31 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The independent claim is directed to a product, therefore limitations directed to how the product is made do not serve to further limit the broad claim. If applicant's intent is to have a product by process claim, then the broad claim should be drafted as such.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 28, 29 and 31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The instant claims are directed to a process of making the polyacid ester. However, the claim on which the instant claims depend is a product claim. Therefore, how the polyacid ester is made is of no consequence. It is unclear why these claims are present and the scope applicant is seeking. Applicant never argues nor has it been considered that the claimed polyacid ester is novel. Applicant's arguments are limited to pointing out that the alcohol is the conventional method of making a polyacid ester. See applicant remarks, page 8, last paragraph-page 9, 1st paragraph. Further clarification and/or correction is required.

Response to Arguments

4. Applicant's arguments, see remarks, filed 9/1/2005, with respect to the disputed language "in the free form" have been fully considered and are persuasive. The 35 USC 112, 1st paragraph rejection of the claims has been withdrawn.

Allowable Subject Matter

5. Claims 24-27, 30 and 32-57 are allowed.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
